Abstract

Little Meme. Big Dream. Welcome to TOSA...

TOSA INU was created in December 2021 with the goal of being a decentralized meme project with true purpose.

TOSA's mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, TOSA introduces holders to next-gen concepts such as participation rewards, NFTs, decentralized exchanges, and more.

The TOSA INU project includes...

\$TOSA TOKEN

An BEP20 meme token that fosters and promotes healthy and widespread usage and decentralization of the project through a specific reward linked to users' transactions involving decentralized wallets.

TOSA SWAP

Decentralized exchange that features custom functionality and allows holders to trade among themselves and without any centralized point of failure any BEP20 token for another.

TOSA CRATE

NFT Marketplace where users can stake \$TOSA in exchange for NFT rewards created by artists from community contests. The artists are awarded prizes out of the \$TOSA staking pool.

TOSA PAW PRINT

Wallet tracker where users can track their prizes and rewards out of \$TOSA usage, current token valuations, wallet balance, and more.

TOSA SWAG

A merchandise store run by a ownerless, stockholderless non-profit organization to allow \$TOSA holders to proudly support TOSA INU's fun in the real world, with any and all proceeds supporting the TOSA INU's project growth, maintenance and future features.

02 Values

TRANSPARENCY & COMMUNITY

TOSA INU is ownerless, fully decentralized and supported by its community of enthusiasts. Free, open and frank communication is encouraged within the community supporters so that everyone willing can be informed and even participate in every step of TOSA INU's growth! Multiple, independent, free group efforts in development, community self-management and more are strongly encouraged!

TRUST

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort. Examples include top-grade audits of \$TOSA's code, and liquidity tokens being burnt to strongly reduce any risk of malicious behavior.

LONGEVITY

TOSA is in it for the long haul. The decentralized community is fostering long-term development of the ecosystem which will result in real use cases, greater rewards and a popularity beyond any temporary trends.

03 \$TOSA Token

\$TOSA is an BEP20 token which started on the Binance blockchain December 7, 2021.

The max supply is 100 million and one of its key functionalities is its decentralized usage rewards mechanism. For every active user transaction a 2% \$TOSA reward is granted to holders' decentralized wallets only, fostering a healthy distributed network and community usage. The more \$TOSA is actively used, the more rewards are granted!

The \$TOSA Token Smart Contract soon complete a top-grade security audit to further the community's confidence, in full transparency.

TOSA INU is a fully decentralized and community driven project - \$TOSA liquidity pools and listings are constantly added by many completely independent enthusiasts and supporters in a number of different exchanges, among which:

EXCHANGES

PancakeSwap	12% Slippage
Gate.io	TOSA/SOON
OKEx	TOSA/SOON
Poloniex	TOSA/SOON
ZB.com	TOSA/SOON
Uniswap	TOSA/SOON
BKEX	TOSA/SOON
Bitrue	TOSA/USDT
BiKi	TOSA/USDT
Bilaxy	TOSA/BNB
Hotbit	TOSA/SOON

...and many others thanks to our active and diverse community!

04 Ecosystem

TOSA SWAP

TOSA SWAP is a decentralized exchange (DEX) where users can swap any BEP20 token for another one.

It is powered by Pancakeswap, the largest and safest DEX in the world and acts as the foundation on which TOSA INU will develop further functionality and use-cases for any \$TOSA holder.

TOSA CRATE

TOSA CRATE is the official TOSA INU community's NFT decentralized marketplace - \$TOSA tokens can be staked (locked) in order to receive exclusive NFT rewards and digital collectibles featured by artists that are themselves part of the TOSA community.

TOSA INU will foster participation in regular contests for artists to showcase their work and have the community vote on which should be added to the marketplace.

TOSA PAW PRINT

TOSA PAW PRINT is an app with which users can track their \$TOSA token stats over time.

Stats include \$TOSA rewards and total balance, current USD value, price charts, and more.

TOSA sWAG

TOSA sWAG takes TOSA to the mainstream by allowing any enthusiast to represent TOSA in the wild with official merchandise sold by a completely ownerless and non-profit, transparent organization. Any proceeds will be used to foster and support further TOSA INU community and platform development.
